

## SPEAKER TRAINING

# DISCOVER > transforming presentation

### PEOPLE ARE HUNGRY

They are hungry for success and security but, most of all, they are hungry for significance. The challenge is in being able to meet these needs as well as present a solution to their spiritual need.

As a business leader, you have a unique platform. The credibility and insights you have gained in the business world is invaluable, and others want to know what you know. What distinguishes you as a leader is that you also have a personal relationship with God, which is the ultimate need of the human soul.

LeaderImpact group has developed a forum in cities across Canada to showcase the expertise of business leaders like yourself. Life and business skills are honed by practice, and so is the ability to present the Gospel in a clear, succinct and powerful way. This is where LeaderImpact group can help equip you with the tools to become a great communicator of the Gospel message.

### ARE YOU UP FOR THE CHALLENGE?

LeaderImpact group is committed to ensuring excellence in training all our speakers. Therefore, due to the unique nature of our training, the number of participants is restricted to four.

In addition, it is expected that you will be willing to speak evangelistically in Canada and/or the world within six months of completing the training.

So, if you're an entrepreneur, have a heart for God and something to say about success in life and business, then this just may be for you!

- Write a presentation on leadership, incorporating your personal faith story
- Learn practical presentation skills
- Receive a professional bio and photo
- Present your talk twice
- Receive a DVD of your presentation

### WHAT ALUMNI ARE SAYING:

"thank you for sharing your amazing talent with us. Your ability to draw us out was/ is amazing. Those two days will go down in my book as one of my "life altering memories". So, THANK YOU!!

*Esther De Wolde, CEO, Phantom Screens*

"I do quite a lot of public speaking, so initially I thought this would honestly be a waste of my time. However, I found the training to be practical, enjoyable, and challenging all at the same time!"

*David C Bentall  
former President/CEO,  
Dominion Construction*
